[b] Institute of AI (TeleAI), China
[c] School of Artificial Intelligence, Optics and Electronics (iOPEN), Northwestern Polytechnical University (NWPU), China
[d] Zhejiang University of Technology, China
[e] SGIT AI Lab, State Grid Corporation of China, China
[f] Baidu Inc., China

The authors would like to provide the corrected affiliation list, the updated acknowledgement section, and the revised author biographies for Xuelong Li and Jian Zhao.

Author affiliations:

Jiazheng Xing [a,1], Jian Zhao [b,c,1], Chao Xu [a], Mengmeng Wang [d], Guang Dai [e], Yong Liu [a,*], Jingdong Wang [f], Xuelong Li [b] a) State Key Laboratory of Industrial Control Technology, College of Control Science and Engineering, Zhejiang University, China b) The Institute of AI (TeleAI), China Telecom, China c) School of Artificial Intelligence, Optics and Electronics, Northwestern Polytechnical University, China d) Zhejiang University of Technology, China e) SGIT AI Lab, State Grid Corporation of China, China f) Baidu Inc., China

Acknowledgements

This work was supported by the State Key Laboratory of Industrial Control Technology, China, under Grant No. ICT2024A09, and in part by the National Natural Science Foundation of China under Grant No. 62476224.

Xuelong Li (Fellow, IEEE) is currently the CTO and the Chief Scientist of China Telecom, where he founded the Institute of Artificial Intelligence (TeleAI), China Telecom.

Jian Zhao (Member, IEEE) received the Ph.D. degree from the National University of Singapore (NUS), Singapore, in 2019.,He is currently the Leader of the EVOL Laboratory and the Principal Research Scientist with the Institute of AI (TeleAI), China Telecom, China, and a Researcher and a Ph.D. Supervisor with the School of Artificial Intelligence, Optics and Electronics (iOPEN), Northwestern Polytechnical University (NWPU), Xi'an, Shanxi, China. He is in charge of seven relevant projects supported by the National Nature Science Foundation of China (NSFC), Beijing. He has published over 60 CCF-A academic articles, including first-author TPAMI × 2 (IF: 20.8) and IJCV × 3 (IF: 11.6). He has been authorized five national invention patents as the first inventor. His related technical achievements have been applied and verified in seven leading technology enterprises, including China Telecom, Baidu, Ant Financial, Qihoo, and 360, and have produced significant benefits. His main research interests include AI governance and vicinage arch security.,Dr. Zhao served as a member for the Board of Directors of Beijing Society of Image and Graphics (BSIG). He is a Senior Member of China Computer Federation (CCF), China Society of Images and Graphics (CSIG), and Chinese Association for Artificial Intelligence (CAAI). He received the 2020–2022 Young Elite Scientist Sponsorship Program from China Association for Science and Technology (CAST) and the 2021–2023 Beijing Young Elite Scientist Sponsorship Program from Beijing Association for Science and Technology (BAST). He has won the WU WEN JUN AI Outstanding Youth Award in 2023, the First Prize of the WU WEN JUN AI Natural Science Award in May 2022, the PREMIA Lee Hwee Kuan Award in 2019, and the ACM Multimedia Best Student Paper Award (first author, 1/208, CCF-A conference) in 2018. He has also won eight winner awards in domestic and foreign technical challenges. He has served as the Senior Area Chair for the Vision and Learning Seminar (VALSE), the Session Chair for the ACM Multimedia in 2021, the Area Chair for CICAI from 2022 to 2023, and the Workshop Chair for CCBR in 2024. He was an Editorial Board Member of the internationally renowned journals Pattern Recognition, Electronics and Signal Processing, Artificial Intelligence Advances, and IET Computer Vision. He has served as the Guest Editor for Pattern Recognition Letters special issue on Recent Advances in Deep Learning Model Security and Electronics special issue on Multimedia Content Analysis, Management and Retrieval: Trends and Challenges.
